

Alternative Investment Fund Managers Directive (AIFMD)
Remuneration Disclosure AIF Annual Report and Accounts

Remuneration Policy

The abrdn plc Remuneration Policy applies with effect from 1 January 2022. The purpose of the abrdn plc Remuneration Policy (the "Policy") is to document clearly the remuneration policies, practices and procedures of abrdn as approved by the abrdn plc Remuneration Committee (the "Committee"). The Policy is available on request.

The Policy applies to employees of the abrdn group of companies ("Group" or "abrdn") including AIFMD Management Companies ("ManCos") and the AIFMD funds that the ManCo manages.

Remuneration Principles

abrdn applies Group wide principles for remuneration policies, procedures and practices ensuring that:

- Remuneration within the Group is simple, transparent and fair.
- Our Policy supports our long-term strategy by reinforcing a performance-driven culture. It aligns the interests of our employees, shareholders and, importantly, our clients/customers.
- Our remuneration structure recognises the different challenges and priorities of roles and Vectors and Functions across the organisation as appropriate.
- Remuneration policies, procedures and practices promote good conduct, including sound and effective risk management and do not encourage risk taking that exceeds the level of tolerated risk appetite.
- Remuneration extends beyond the provision of fixed and variable pay, with a focus on the retirement provision and the wellbeing needs of our employees, as part of our remuneration philosophy. Total remuneration delivered is affordable for the Group.

Remuneration Framework

Employee remuneration is composed of fixed and variable elements of reward as follows:

- a) Fixed reward (fixed remuneration: salary and cash allowances, if appropriate); and Benefits (including pension).
- b) Variable reward (bonus, a proportion of which may be subject to retention or deferral depending on role and regulatory requirements; and senior employees may also be awarded a long-term incentive award).

Appropriate ratios of fixed: variable remuneration will be set to as to ensure that:

- a) Fixed and variable components of total remuneration are appropriately balanced and
- b) The fixed component is a sufficiently high proportion of total remuneration to allow abrdn to operate a fully flexible policy on variable remuneration components, including having the ability to award no variable remuneration component in certain circumstances where either individual and/or Group performance does not support such award.

<i>Base salary</i>	Base salary provides a core reward for undertaking the role and depending on the role, geographical or business market variances or other indicators, additional fixed cash allowances may make up a portion of fixed remuneration. Periodic reviews take into account the employee's role, scope of responsibilities, skills and experience, salary benchmarks (where available) and, where relevant, any local legislative or regulatory requirements.
--------------------	--

<p><i>Benefits (including retirement benefit where appropriate)</i></p>	<p>Benefits are made up of core benefits which are provided to all employees; and extra voluntary benefits that may be chosen by certain employees which may require contribution through salary sacrifice or other arrangements.</p> <p>Retirement benefits are managed in line with the relevant legislative requirements and governance structures. In certain, very limited circumstances, a cash allowance may be offered in lieu of a retirement arrangement.</p>
<p><i>Annual Performance Bonus Awards</i></p>	<p>Employees who have been employed during a performance year (1 January to 31 December) may be eligible to be considered for an annual bonus in respect of that year.</p> <p>Annual bonuses are based upon Group, Vector, Function, Team and Individual performance (with individual performance assessed against agreed goals and behaviours). The variable remuneration pool for all eligible employees, including Identified Staff or Material Risk Takers ("MRTs"), is determined initially by reference to profitability and other quantitative and qualitative financial and non-financial factors including risk considerations (on an ex-post and ex-ante basis). In reaching its final funding decision, the Committee exercises its judgement to ensure that the outcome reflects holistic Company performance considerations.</p> <p>abrdn Capital Partners LLP has specific obligations to act in the best interests of the AIFMD funds it manages and its investors. Accordingly, the performance of the underlying funds and the interests of investors (including, where relevant, investment risk) are also taken into account as appropriate. The Risk and Capital Committee and the Audit Committee formally advise the Committee as part of this process.</p> <p>The overall bonus pool is allocated to vectors and functions based on absolute and relative performance for each vector and function, and their alignment with strategic priorities and risk considerations. Allocation by region and subdivision/team is determined on a discretionary basis by the vector, regional and functional heads based on the absolute and relative performance of the constituent teams and alignment with strategic priorities.</p> <p>Individual annual bonus awards are determined at the end of the 12-month performance period with performance assessed against financial and nonfinancial individual objectives, including behaviour and conduct. Individual awards for Identified Staff are reviewed and approved by the Committee (with some individual award approvals delegated, as appropriate, to the Group's Compensation Committee, over which the Committee retains oversight). In carrying out these approvals, the Committee seeks to ensure that outcomes are fair in the context of overall Group performance measures and adjusted, where appropriate, reflect input from the Risk and Capital Committee and the Audit Committee. Variable remuneration awards are subject to deferral for a period of up to three years. A retention period may also be applied as required by the relevant regulatory requirements. Deferral rates and periods comply, at a minimum, with regulatory requirements and may exceed these. In addition to the application of ex-ante adjustments described above, variable remuneration is subject to ex-post adjustment (malus / clawback arrangements).</p>

<p><i>Other elements of remuneration – selected employees</i></p>	<p>The following remuneration arrangements may be awarded in certain very limited circumstances:</p> <p>Carried Interest Plans – These arrangements are designed to reward performance in roles where a carried interest plan is appropriate. Selected employees are granted carried interest shares in private market funds established by the Group.</p> <p>Buy-Out Awards/Guaranteed Bonuses – These are intended to facilitate/support the recruitment of new employees. Buy-outs are not awarded, paid or provided unless they are in the context of hiring new employees. Guaranteed bonuses are not awarded, paid or provided unless they are exceptional and in the context of hiring new employees and limited to the first year of service. These awards are only made where such a payment or award is permitted under any relevant remuneration regulations and are designed to compensate for actual or expected remuneration foregone from previous employers by virtue of their recruitment.</p> <p>Retention and Special Performance Awards / LTIP – Supports retention and/or the delivery of specific performance outcomes. The Company may determine that it is appropriate to grant an exceptional award in limited circumstances. Awards are structured to deliver specific retention and/or performance outcomes. Retention and/or special performance awards comply with all relevant regulatory requirements.</p> <p>Severance Pay – Payment made to support an employee whose role is considered to be redundant. Severance payments comply with any legislative and regulatory requirements and any payments are inclusive of any statutory entitlement. In the event of severance, the treatment of any individual elements of an employee’s remuneration is governed, as appropriate, by relevant plan or scheme rules.</p>

Control Functions

The Group ensures that, as appropriate, senior employees engaged in a control function are independent from the business units they oversee and have appropriate authority to undertake their roles and duties. These include, but are not necessarily limited to, Risk, Compliance and Internal Audit function roles. Senior employees engaged in a control function are remunerated in a way that ensures they are independent from the business areas they oversee, have appropriate authority, and have their remuneration directly overseen by the Remuneration Committee.

Conflicts of interest

The Remuneration Policy is designed to avoid conflicts of interest between the Group and its clients and is designed to adhere to local legislation, regulations or other provisions. In circumstances or jurisdictions where there is any conflict between the Policy and local legislation, regulations or other provisions then the latter prevail. Where the Committee receives input from members of management on the remuneration arrangements in operation across the Group this never relates to their own remuneration.

Personal Investment Strategies

The Company adheres to the regulatory principles and industry best practice on the use of personal hedging strategies which act in restricting the risk alignment embedded in employee remuneration arrangements.
